## 1379.0.55.001 - National Regional Profile, 2006 to 2010

Previous ISSUE Released at 11:30 AM (CANBERRA TIME) 04/11/2011

## Summary

### About this Release

The National Regional Profile (NRP) presents, for all Australia, a range of data for various types of small regions. Data are available for Local Government Areas, Statistical Local Areas and other larger geographies.

The NRP is intended for users interested in the characteristics of regions and in comparing regions across Australia. Data are presented as a five year time series, where available. These data are organised under the broad topics of Economy, Population/People, Industry, and Environment/Energy. Data for individual regions are available in web pages, Excel spreadsheets, and all regions are available in SuperTABLE data cubes and in a single .csv file. Users can search for a region using the region name or by using a map.

To find the latest NRP data please see the Data by Region navigator. For previous NRP data please see National Regional Profiles: Past Issues.

The datacube allows users to choose two local government areas and a data item, for which the requested data will then be displayed. No new data are included.

21/11/2011 The Population SuperTABLE has been updated to include the regions of Albury (LGA), ACT Offshore areas and migratory (SLA), and ACT Remainder (SLA).
